## Letter Grade Equivalencies

The chart below provides a broad overview of how Indiana Wesleyan University understands each grade level. Grade levels are primarily associated with the degree to which a student meets (or exceeds or fails to meet) the outcomes of a particular assignment. Scores and grades are based on the quality of student work as measured by stated rubrics. The pluses and minuses in each grade level allow the instructor some leeway as they apply their expertise in the evaluation of student work. Grades are often a delicate matter that involves both the instructor's sincere judgment and

the student's effort and openness to feedback. If you have any questions about IWU's grading practices, please contact your instructor personally.

<b>Grade</b>	<b>Category</b>	<b>Description</b>
<b>A</b>	Excellent	The student's work exceeds some or all stated outcomes (with all outcomes being met). The work demonstrates original thinking, critical analysis, and probing beneath basic issues that result in fresh insights. The student shows an awareness of the breadth of the subject matter and integrates relevant points into his/her work in wise and creative ways.
<b>B</b>	Competent	The student's work either competently meets all stated outcomes or has a mixture of excelling on some outcomes while falling slightly below on others. The student's work demonstrates some critical thinking and analysis, dealing directly with the assigned topic and developing sound content. The student shows an awareness of some other dimensions of the subject matter and makes reasonable connections at a few points.
<b>C</b>	Needs Improvement	The student's work meets some outcomes and fails to meet others. Critical thinking and analysis have flaws or are applied inconsistently and incompletely, leading to gaps and mistakes. The work shows noticeable gaps in the awareness of the subject matter and does not make helpful connections, resulting in work that needs
<b>Grade</b>	<b>Category</b>	<b>Description</b>
		improvement.

<b>D</b>	Inadequate	The student's work fails to meet most of the stated outcomes. Critical thinking and analysis are either largely absent or regularly flawed, resulting in mere restating of content or problematic conclusions. The work shows little awareness or mistaken representations of the subject matter and misses obvious connections. This work demonstrates a lack of competence in this area.
<b>F</b>	Failing	The student's work fails to meet the stated outcomes, sometimes not even touching on some of the assignment requirements. Critical thinking and analysis are either entirely absent or seriously flawed. The work shows no connections to the broader subject matter or reiterates mistaken understandings. Such work demonstrates a severe lack of competence and suitability for passing an assignment or course.

**Note:** In graduate level courses, a grade of C- or below will require the course to be repeated.
